

Ownership evidence pack — title and control summary

Application reference	TAC-2026-0010
Project	Adalbertofield Solar Scheme
Developer / client	Kilback - Veum SPV Ltd
Parent developer	Hudson, Feeney and Ernser
Document (as filed)	Ownership Evidence 3 (v2)
Inferred type	ownership evidence
Category	land rights
Document date	2026-08-04T07:35:55.000Z

This pack summarises title and control evidence for the land associated with Adalbertofield Solar Scheme (TAC-2026-0010). It supports assertions that the project has sufficient rights over the development footprint and access routes.

Parcel / title	Interest type	Notes
TITLE-A	Option / leasehold	Primary development footprint (1130 acres).
TITLE-B	Easement route	Cable corridor and access rights.
TITLE-C	Wayleave	Temporary construction access and utility crossing.

Solicitor commentary (extract)

Based on reviewed registers and plan extracts, no adverse entries materially preventing development have been identified, subject to standard assumptions and outstanding searches listed in the legal schedule.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 3) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-3	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-3	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-3	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-3	Critical path through reinforcement, primary plant, and commissioning tests.

OS-1 and OS-3 certificates are listed for West Deondre Site: 45989 Wuckert Glen, Fort Jennyfer with registered proprietors aligned to Kilback - Veum SPV Ltd.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 4) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-4	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-4	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-4	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-4	Critical path through reinforcement, primary plant, and commissioning tests.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 5) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-5	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-5	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-5	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-5	Critical path through reinforcement, primary plant, and commissioning tests.

Title extracts show unencumbered ownership subject only to standard utility easements.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 6) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-6	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-6	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-6	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-6	Critical path through reinforcement, primary plant, and commissioning tests.

The bundle index references revision “R4” for one schedule but the attachment set only includes “R3”.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 7) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-7	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-7	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-7	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-7	Critical path through reinforcement, primary plant, and commissioning tests.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 8) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-8	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-8	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-8	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-8	Critical path through reinforcement, primary plant, and commissioning tests.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 9) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-9	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-9	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-9	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-9	Critical path through reinforcement, primary plant, and commissioning tests.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 10) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-10	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-10	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-10	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-10	Critical path through reinforcement, primary plant, and commissioning tests.

Ownership Evidence 3 (v2) — supporting appendix

This appendix (sheet 11) supplements TAC-2026-0010 for Adalbertofield Solar Scheme. It cross-references the declared export capability (73 MW (export)), the technology mix (solar_plus_bess), and the connection scope at Terrencefort BSP · 132 kV class interface. Figures in the operator-facing pack may supersede this extract where stamped “controlled copy”.

Workstream	Cross-ref	Operator review notes
Land & access	LA-11	Verify red-line, access rights, and any wayleave assumptions against latest survey.
Planning & consent	PC-11	Confirm commencement conditions and discharge of pre-commencement items.
Electrical design	EL-11	Align SLD, protection, and fault level study with latest DNO / TO model version.
Programme	PR-11	Critical path through reinforcement, primary plant, and commissioning tests.
